

Instapak Quick® Foam-in-Place Packaging

Foam in a bag system.

- Easy to use, protective foam cushions in an instant!
- Perfect for small to medium-sized packaging operations looking for the superior cushioning properties of Instapak® foam without a large up-front investment.
- Chemicals are activated in the bag so no clean up is required!
- Compact tabletop warmer requires limited counter space.
- Extra thick bags contain 25% more foam for extra protection.
- An innovative Sealed Air solution.

IQH80B	80	22" x 27"	18" x 12" x 12"	120

* Extra thick - contains 25% more foam

1. Select a warm bag and apply pressure to the "Press Here" area to open the inside seal.

2. Pat part "A" and part "B" back and forth and the bag will begin to expand.

3. Place the expanding foam-filled bag in the shipping carton and nestle the product onto the cushion.

4. Place a second expanding bag on top of the product to create a top cushion and simply close the carton flaps!

Instapak Quick® RT Foam-in-Place Packaging

Room temperature foam in a bag system.

- Protect anything and everything, anywhere!
- No equipment required! Completely portable!
- Works the same as Instapak Quick® without the need of a preheating warming unit!
- Recommended temperature range is 65° - 90° F.
- Chemicals are activated in the bag so no clean up is required!
- Extra thick bags contain 25% more foam for extra protection.

Completely mobile to use anywhere.

Convenient! Takes up little space.
